EUR 1,799

Whenever you enroll in our Sustainability Remote Internship Program you contribute with the education of a child in Cambodia through our partner [Toutes a l'Ecole](#)

Attention all Social Impact Enthusiasts!

This sustainability Internship will give you the opportunity to gain amazing insights into the social entrepreneurship and organizational sustainability landscape around the globe, working with and supporting some of the leaders in sustainable and social impact.

Our partner organisations are established companies working on Sustainable Development Goals. This Sustainability Internship allows you to gain relevant and valuable work experience and knowledge from home.

Internships are project based and we offer flexible working hours that can range from 20 to 40 hours per week. You will gain access to a new global network of professionals in the industry who will help further your career!

Our Host Companies understand what the industry expects from their new hires, it is our goal to connect our students to top leading companies in the non-profit, or social responsibility industry and help them develop skills specific to their desired career path.

"They helped me increase my knowledge about the solar industry. I was able to familiarize myself with technical terminology. Helped grow my communication skills. I created an updated and new take on their proposal for quality assurance services. Mapped out competitions within their markets region. Provided a business insight to their operations. I would've not learned about what I see doing after college. And in what area. I would've missed out on gaining a new perspective on the world and my place in it!"

Avery (University of Oregon)
Green Technology internship in Singapore

Companies Overview

EARTH · ORG
PAST · PRESENT · FUTURE

[Earth Org](#), is a global not-for-profit environmental organisation based in Hong Kong. It raises awareness about the loss of biodiversity and the deteriorating conditions of natural ecosystems worldwide. It advocates for better governance of natural resources and campaigns for countries to adopt principles of natural capital accountancy into their economic policy making decisions.

[Upbeing](#), based in Shanghai, is a service provider of personalized sustainable education. They facilitate projects for those who are interested in social issues, combine community crowdsourcing to form a three-win vision of personal growth, ecological community building, and service to the earth.

EMMAUS
STOCKHOLM

[Emmaus](#) based in Stockholm since the 70s. They contribute to a sustainable world through reuse, development projects and information work. With funds raised from our second-hand sales, they support Western Sahara's right to self-determination. They also support projects in Angola, Colombia and Palestine.

CDA Herts based in London, have been helping communities and delivering projects and services for over 50 years to help improve life for both rural and urban communities. They work to raise awareness of the needs of rural communities, farmers and businesses bringing together people and communities, helping the disadvantaged and providing advocacy for minorities and excluded groups.
